

# Model Rivage

What could be better than a semi-detached home with a layout as well designed as a single-family home? The minimally-divided living space on the ground floor provides an area spacious enough for the entire family. Friends will be naturally drawn to the kitchen's central island during evening get-togethers. A practical office space has also been planned for weekly paperwork. The second floor has three bedrooms, including a master bedroom with a dedicated walk-in closet.
